

SUSTAINABLE INFRASTRUCTURE PROGRAM: LOW-IMPACT DEVELOPMENT AND CLIMATE RESILIENCE

Introduction to Low Impact Development

Thursday, September 16, 2021

Required Course

Principles of Successful LID Construction

Thursday, September 30, 2021

Required Course

LID Inspection, Maintenance and Operations

Thursday, October 7, 2021

Required Course

LID Design: Bioretention

Thursday, October 21, 2021

Elective

Assessing your conceptual design: Using the LID Treatment Train Tool for Design Analysis

Thursday, November 4, 2021

Elective

Assessing the costs of your conceptual designs and tendered projects: Using the LID Life Cycle Costing Tool for Cost Analysis

Thursday, November 18, 2021

Elective

Introduction to Erosion and Sediment Control Best Practices for LID Implementation

Thursday, November 25, 2021

Elective

LID Performance Monitoring Verification

Thursday, January 13, 2021

Elective

Emerging Topics in Stormwater Management

Thursday, January 27, 2021

Required Course

Introduction to Municipal Stormwater Financing / Charges

Thursday, February 3, 2021

Elective
